

# DANGEROUS APPS

## What Attendees Are Saying

*"Attending this presentation was very worthwhile. I now understand how to talk about inappropriate apps and predators with my kids and grandkids."*

Jean Gagne, Grandparent,  
North Bay, Ontario

*The style of this presentation was very engaging. My favourite part was hearing what kids want their parents to know. I learned about apps I had never heard about that kids may be using.*

Tricia Bird, Victim Services Volunteer,  
Mississauga, Ontario

*I learned so much about data collection, especially when it came to the GPS and location services functions on my kids devices. I realized that I am not the only one who can track them. This is a must attend seminar for parents with a child using a smartphone.*

Susan Nelson, Court Worker,  
Cochrane, Ontario

## What Organizations Are Saying

*"We love the sessions offered by Cyber Smart Canada. We invite Melanie back year after year."*

Sandra Chan,  
Hamilton Children's Aid Society

*"Cyber Smart Canada's program was great for our kids and our community. They were so easy to work with and helped us with everything from including supplying customized marketing materials for us to use, print & distribute as needed."*

Genny Weinburger  
Simcoe Street Public School, Niagara Falls, ON

*"My staff learned so much during our lunch & learn session. We will definitely be booking another session in the Fall!"*

Janice Belliveau, President,  
Clare Mutual Insurance, Nova Scotia

During this seminar, caring adults discover the common features in apps used by predators to target kids online. They master a simple system to protect children in their care by developing a game plan to evaluate any digital media kids want access to.

## DISCOVER HOW ONLINE PREDATORS ARE USING COMMON FEATURES OF APPS TO TARGET CHILDREN ONLINE AND THE PROTECTION STEPS YOU CAN TAKE TO PREVENT IT

This course includes what every caring adult should know including:

- The 10 common features of apps that are dangerous
- How to evaluate a new app, website, or game for online dangers using our traffic light system
- The 3 secrets to protecting youth from online predators (that can be implemented today)
- How online predators choose a child target
- The signs your child may be a victim and where to go for help
